

Resolution – Texas Citizens will Determine Testing and Treatment of their Own Health Problems – Not the Government

Whereas, the citizens of Texas have and continue to suffer tremendously under the abuses and misuses of government edicts and medical tyranny;

Whereas, treatment plans have traditionally been decided between physicians and patients;

Whereas, the government and government agencies have interfered between physicians and patients' treatment plans, including attempting to remove physicians' licenses for treating according to the patients' wishes;

Let it be resolved that Texas citizens will determine testing and treatment of their own health problems - not the government or government agencies.

THEREFORE, LET IT BE RESOLVED, that a copy of this resolution be sent to the _____ County/Senate District # _____ Convention Resolutions Committee from Precinct # _____ with the recommendation that it be passed and sent to the State Convention Platform Committee of the _____ Party of Texas.
