

We Have Hope in Disappointment

-The Texas Senate can and must block bad legislation

-The world will see the bad legislation the Left will push

-Fresh Conservative leaders will rise. We already have some amazing younger warriors in the hopper

-We still have free speech and can educate those who will listen and want to learn

-We will take Texas back with better and stronger Conservative leaders

-When people tell you how they voted, you learn who they really are. Sadly, many are not deep thinkers... You can help them become equipped to help them become better
