

The video for *Grid Down, Power Up* is available for viewing now! This important documentary was shown at the Texas Capitol on May 18th and was followed by a panel discussion. This film investigates threats to our critical infrastructure and the vulnerabilities of both Texas and national electric grids. Learn from the film and the experienced panel discussion, including Senator Bob Hall, how we got here, how we can address immediate needs, and what tomorrow could look like if we were to do nothing.
